

Intel Awards Rave  
with "Most Innovative  
Server/Workstation  
Solution in North  
America"

## See as Much as You Can. As Fast as You Can.

With Rave's award winning simulation & visualization computing solutions.

Rave Computer was awarded first place and recognized as the Intel® Top Innovative Channel Partner in North America for the Most Innovative Server/Workstation Solution, which applied to a simulation application.

Rave understands the complexities of designing and building visualization computer solutions. If your company sells simulators or utilizes high-end graphics, partner with Rave to develop a high-performance computer solution designed to meet your specific needs.

Integrated Solutions from Design to Delivery

# Visualization & Simulation Computing Solutions

## Consultative Approach

At Rave, the design process always begins by listening to the needs of our customers to develop a customized or modified simulation solution.

Rave's engineering and product development team are experts at balancing system characteristics with price, performance, and other factors such as:

- Acoustic output
- Frame rendering speed
- Image quality and accuracy
- Physical size
- Reliability
- Component availability/lifecycle management
- Power draw/thermal management

## **Rave designs custom computers based on YOUR needs**

### Custom Configuration at the Cost of Commercial-off-the-Shelf (COTS)

Rave designs computers specifically based on your needs reducing costs down by using commercially available components. Rave will manufacture custom components only when a commercial-off-the-shelf solution is not available or upon customer request.

## **Rave offers flexibility you won't receive from other major manufactures.**

### Locked in Bill-of-Material (BOM)

Rave maintains strict bill-of-materials guidelines for every computer design. Rave will not change internal components without customer consent. This benefits our customers because product configuration is maintained and guaranteed assuring that software performance meets strict guidelines and performs as promised. NO surprises.

## **Rave offers consistency that you won't receive from major manufactures.**

### Guaranteed Reliability and a 3-Year Warranty

- Premium components backed by direct manufacturer relationships
- Lifetime toll free technical support with our extensively trained technicians
- Customized Quality Assurance Inspection Process
- Custom wiring and tie downs
- Fully tested with overnight burn-in
- ISO:9001:2008 Certified
- TUV Qualified Laboratory for safety testing

## **Rave is an industry leader offering Award Winning, world-class computational power to the visualization and simulation industry.**
